## End of the Road for Corvette Fever

The October 2010 issue of *Corvette Fever* magazine will be the last. The economy has left its mark on the publishing industry as Source Media Group, parent company of both *Corvette Fever* and *Vette* magazines, have consolidated publications to the latter rag. The "new" *Vette* will be printed on better paper, have a heavier, glossier cover, and will grow by more than 16 editorial pages to bring you more features and tech.

Current *Fever* subscribers will automatically receive *Vette*, but newsstand buyers must look for the new name.

## A Change of Pace *by Kevin Minnich*

By now you have likely noticed the newsletter looks different than it has over the past decade. Phil Weber's life caught up with his time available to publish AACC's newsletter, so Michelle and I resumed our prior Editorial responsibilities. New times meant a new look. We hope that you are pleased with our design and we look forward to your solicitations for information and any information or photos you can provide us.

A special thanks to Phil, Nancy, Cooper and Avia for stepping in with the 'Vetter's Letter while I got my work life resolved. Now it's my (our) turn to repay the favor. Phil, good luck with your final classes and Master's thesis. Hopefully your busy work life filled with getting things in to space leaves enough time to spend with your family. Thanks again for your support!
